**Vita / Bio** Enthusiastic and obstinate would probably best describe Janina, a Berlin born & based DJ, and above all a pillar of the German electronic underground scene for more than twelve years. After dropping out school and having bought her first turntables in her early years, Janina built a deep knowledge of electronic music and developed a deep interest in Vinyls, while working at the Berlin DNS Record Store. Lively and full of curiosity, it was obvious to Janina that she will dedicate her time and energy to music when she discovered the BeatStreet parties and got her first Perlon Records as presents. She has first been knowledged for her active residency at the needs-no-introduction Club der Visionäre. She developed over the time a impressive sharp ear, technical skills, an asserted signature, despite continuously evolving music tastes. First gig at Club der Visionäre at the age of 18, where she is since then a resident, Janina performed at the most legendary nightclubs of european capitals, with ears and eyes wide open to the crowd. While sharing the decks with Robert Hood, Chris Liebing, Richie Hawtin, Thomas Melchior, Fumiya Tanaka, Sonja Moonear, Cassy and other artists around the world, she is now playing regular as a resident of Monasterio Club Showcases and once a month for Unusual Suspects at Sankeys Ibiza. Passionate, creative and constantly willing to improve the electronic landscape, Janina is now focusing on her Label for Techno, Experimentel and Ambient Projects.
