Vita / Bio Veras timeless music selection, a subtle mixing style and her authentic, elegant appearance behind the decks impressed clubbers and promoters all around the globe. Constantly evolving and picking up impulses, she follows her intuition rather than trends and she keeps surprising with unexpected sets, that have an unpretentious, female touch. Veras media are her vinyls, that she's choosing from a decent record collection. For her it's all about the story a dj is telling and the ambience being created, not about genres or playing one big tune after the other. Each gig she prepares passionately, trying to imagine and select the right music for each place she's visiting.

Her roots reach back to the golden age of techno and house- the early 90's. Over a decade of experience behind the decks turned her into a routined DJ, that is booked in numerous places all over the world. At the same time though, she's still a insiders' tip to many.

Since 2004 she has a residency at the famous Robert Johnson Club in Offenbach. In 2005 a residency start for Monza Ibiza. In 2006 she played at Space and DC 10 and In the past years she graced numerous top clubs with her presence, such as Panoramabar (Berlin), Warehouse (Tokyo), Rex, Concrete (Paris), Fabric (London), Goa (Rome), Next Wave (Ibiza) ..just to name a few

As a producer Vera released music on respected labels like Perlon, Oslo, Hello? Repeat and moonharbour/cargo edition, Assemble Music solo works as well as colaborations with Ricardo Villalobos, Federico Molinari and with Maayan Nidam, under the moniker Mara Trax. Since 2011 Vera lives and works in Berlin, she start to run the Label Meliflow, where she's hosting regular nights at her favorite Berlin place, Club der Visionäre
